23. Problem: (use additional Sheets if necessary)
DataPools requires installation of jre on Sun on the xxmss20 hosts and PDS Server IRIX hosts.

24. Proposed Solution: (use additional sheets if necessary)
Install jre 1.2.1 on the xxmss20 machines indentified in the ECO, using ECS Document #914-TDA-132, JRE 1.2.1 Maintenance Upgrade and Solaris Patch for the ECS Project.
CCR 01-0543 identifies that jre should be installed for PDS at version 1.3. This CCR updates the baseline for PDS servers that do not currently include this item. DAACs are asked to verify installation has been performed.
Additional baseline markups on attached pages with red-lines.
